Code:	62. 14. 01. 14
PhD student:	Nguyễn Thị Kim Nhung
Supervisors:	1) Prof. Dr Phạm Văn Sơn
	2) Assoc.Prof. Dr Nguyễn Xuân Thanh
Training facility:	Hanoi National University of Education

The new contributions of the thesis

- Contributing to the development and improvement of quality assurance oriented training management theory at Northwestern colleges by combining quality assurance accessing and CIPO accessing.

- Detecting the actual situation of training, the current situation of training management at Northwestern colleges; evaluating the current situation of training management at Northwestern colleges according to theoretical framework and components of CIPO.

- The topic has proposed and confirmed the necessity and effectiveness of eight quality assurance oriented training management measures at Northwestern colleges including: two input management measures; three process management measures; two output management measures; one measure of impact, adjustment of context factors. Proposed measures in the thesis, if being applied and implemented comprehensively, will contribute to ensuring and improving the quality of training at Northwestern colleges.

- The thesis is the reference for leaders at all levels in the management of training at colleges; the reference for leaders of units under the college to help them understand their responsibilities and tasks in advising and deploying the performance of tasks of the organization...
