SUMMARY OF NEW CONCLUSIONS OF PhD THESIS

- Title: ***Training management according to the output standard of the Vocational Colleges under Ministry of Agriculture and Rural Development***
- Speciality: Educational Management
- Classification: 62.14.01.14
- Name of PhD Student: Nguyen Xuan Thuy
- Advisors: 1) Prof.Dr. Nguyen Phuc Chau
  2) Prof.Dr. Nguyen Duc Son
- Institutional: Hanoi National University of Education

NEW CONCLUSIONS

- Training according to the output standard is an indispensable requirement of training institutions in general and of vocational training colleges in particular in the current socio-economic development context.

- Coordination of the elements of the educational theoretical process with the elements of the model CIPO on human resources training, training in the output standard has the main activities: adjust, supplement and publish output standards; Develop training programs; Admissions; Lecturer's teaching; Student learning; Ensure material facilities and training equipment; Promote and limit the impact of the training environment; Evaluate training results and renovate training activities after each training.

- Management training according to the output standards of vocational colleges is the impact of the school management by the basic functions of management (planning, organization, direction and testing) to the team subordinate managers and other educational forces inside and outside the school to carry the training activities (mentioned above) under the influence of the context.

- Reality of training and management training according to the vocational training standards of vocational colleges under the Ministry of Agriculture and Rural Development is facing many difficulties and shortcomings with the main causes of the management of nine training activities (mentioned above). The most influential factor in the management of training by output standard is the management capacity of management staff at all levels in colleges.

- To improve the quality of training according to the output standards, the vocational colleges under the Ministry of Agriculture and Rural Development have to deploy the following management solutions:

1) Mobilize the scientists, managers of colleges and businesses to improve and supplement the output standard before deployment training.

2) Organizing activities that develop training programs towards updating the output standard;

3) Focusing on improving teaching capabilities towards developing competency of students according to the output standard for teaching staffs;

4) Strengthen direct the activities to ensure the means and conditions for the training process according to the outcome of standards;

5) Regularly direct the improvement of training activities on the basis of the evaluated results meet the output standard of students;

6) Organizing the activities about improving training management competency according to the output standard for managers of all levels of the college.
