BREFT INFORMATION ABOUT NEW CONCLUSION IN THE PhD THESIS

Thesis Title: "*Teaching Statistics in the People's Police University in the direction associated with professional practices*"

Field of Study: Teaching theory of Mathematics

Code: 62 14 01 11

PhD Candidate: Vo Thi Huyen

Supervisor: **PhD. Dang Thi Thu Thuy**

PhD. Chu Cam Tho

NEW CONCLUSION IN THE THESIS

Connecting between theory and practice which is a requirement in teaching method is drawn from the philosophical principles of dialectical materialism. In order to propose solutions to improve the effectiveness of teaching Statistics in the People's Police University in the direction associated with professional practices, contribute to equip students for professional capabilities to meet practical requirements, the thesis has made new contributions as follows:

- Theoretical values:

+ Analyze the role of Statistics in professional practice for police

+ Clarify requirements of teaching Statistics in the University of the People's Police in the direction associated with professional practice.

- Practical values:

+ Add more statistics exercises system associated with professional practice for students in the University of the People's Police

+ Improve the quality of teaching Statistics in the University of the People's Police.
